

PGS40-OEM Hand Pump and hose

PGS40 Calibration Hand Pump: Range from -950 mbar to 40 bar/580 psi

The PGS40 is a 3 in 1 calibration hand pump for vacuum, low and medium pressure replacing 3 conventional hand pumps.

It is capable to quickly generate from -960 mbar to 40 bar with minimum effort. The ergonomically designed moulded handles provide perfect grip and comfort even when generating high pressure.

The PGS40 hand pump can be supplied as pump only or as part of a pressure test kit with a large selection of BSP, NPT and Metric adapter and all in house hard transit case

Features

- Dual Source of Vacuum and Pressure
- Generate pressure up to 40 bar/580 psi
- Generate vacuum down to -960 mbar
- Precision fine adjustment Vernier delivers exact pressure set point
- Needle valve provides controlled pressure release
- Selector valve for pressure or vacuum generation
- Adjustable stroke to protect unit under test and reference instruments
